

# **Presentation on Action Plan for Non Structural Mitigation Measures in Schools**

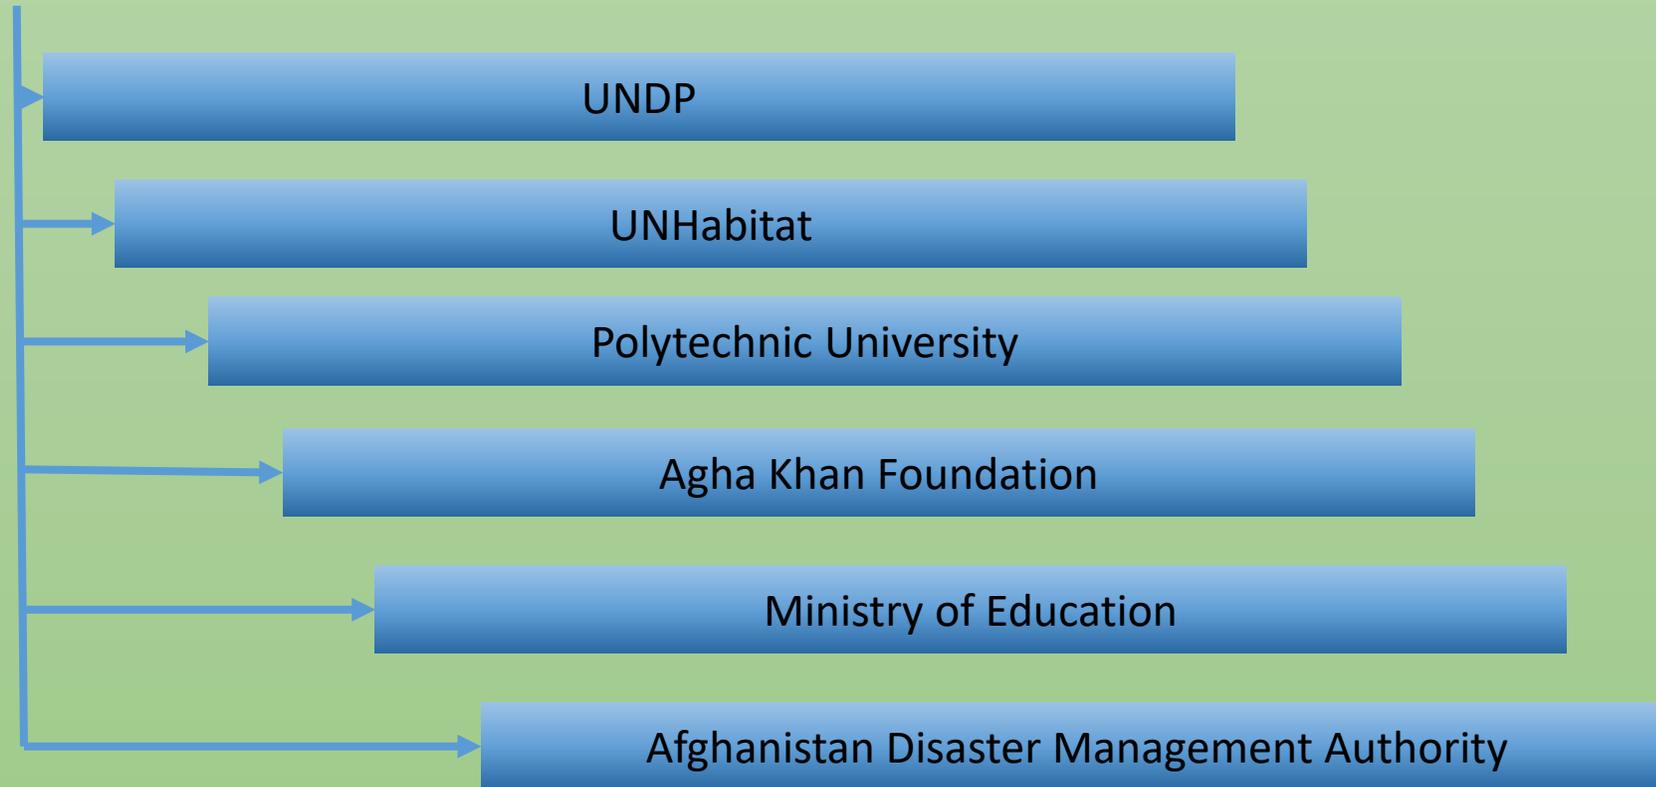

**Hazard-** Hazard is a potential for harm and it is often associated with the condition of activity that can cause undesired consequences such as injury or illness if left uncontrolled,

- **Key Intuitions that requires Non Structural Risk Mitigation:**

- **Key Intuitions that That Involved Non Structural Risk Mitigation:**

- The Maintenance budget is the existing funding mechanism available for the mitigation in schools.
- In some cases the Word Bank gives particular package for resolving specific issue.

- **Strategy of Capacity Development to Insure words into action:**

- Short term  Technical Assistance.

- Long term  Multi- Dimensional.

- Training and Education.

- Capital and Resource.

- Executive Coaching.

- **Issues and Challenges and Way ahead:**

- Security and insufficient funds are main challenges and specially for the remote places in our country.
- Improving the security through the support of government and local people & seeking the fund form national and International Organisations are the ways to overcome the challenges.

- **Expectations for SAARC Disaster Management Centre in Strengthening the Mitigations Measures:**

- Equal norms for research related to hazards and mitigations for all the SAARC countries.
- Sharing of data.
- Training for GIS mapping system.

**THANKS**
